BACKGROUND

The acronym FasoLics stands for Burkina Faso Network for the study of Learning, Innovation & Competence Building Systems. FasoLics is set up to be a platform for multidisciplinary scholarly and technical debates around the key themes of the interuniversity programme on Higher Education, Science, Technology and Innovation, initiated since 2016 by Thomas SANKARA University in collaboration with The National Centre for Scientific and Technological Research, the Ecole Normal Supérieur, Nazi BONI University, Joseph KIZERBO University, and Norbert ZONGO University. The objectives of the present conference are as follow:

CONFERENCE OBJECTIVES

- ❑ To share knowledge and experiences about continuing education in the health and social sector;
- ❑ To make visible the outstanding achievements of the partner universities' and research centres' researchers;
- ❑ To build a long lasting and vibrant community for quality research and teaching through the development of flexibles competence building systems.

PARTICIPANTS

The FasoLics conference will bring together biomedical health professionals, indigenous healers, national and international academic from diverse backgrounds, policy-makers, CEOs from the high tech industry, and our outstanding graduates of our postgraduate programmes. Paper contributions are based on invitations, based on the topic of the conference and the time constraints that did not allow a larger call. Nonetheless, we can still receive contributions based on the available time slots.

SPONSORS

To organize this conference, the organizers have received supports from different organizations, namely KONO DIGITAL, Burkina Innovation, Scientific Communication & Information (BISCI), the Society for the Social Studies of Science, Technology & Innovation (SSSTI-Society), and contributions from members of the interuniversity programme on Policy Studies on Science, Technology and Innovation. Africa Multiple Cluster Centre of Joseph Ki-Zerbo University.
