

# TPLF latest Love-Hate and War-Peace drama to preserve ethnic apartheid

## How many times and ways Ethiopians have to tell Woyane apologists 'ውሸት ሰለቸን' ... 'ወያኔ አይገዛንም?'

Teshome Debalke

December 9, 2017

More strange things happening in Woyane occupied Ethiopia since Ethiopians revolted in the town of

Bishoftu followed by in the city of Gonder that spread throughout the country to end the notoriously oppressive, extortive, divisive and deceitful Tigray People Liberation Front (TPLF) led ethnic apartheid regime that declared the longest State of Emergency in modern history of the nation.

When the State of 'Panic' backed by regime's Agazi paramilitary assassins killed 1000s of Ethiopians to save the crumbling ethnic apartheid wall didn't work, TPLF unleashed its 'ethnic Somali' paramilitary pupate to crudely terrorize, displace and kill Ethiopian 'Oromos' while busing its OPDO pupates to stage newfound [love drama](#) to 'Amhara' pupates -- insulting the intelligence of the people of Ethiopia once again.

When the State of 'Panic' backed by regime's Agazi paramilitary assassins killed 1000s of Ethiopians to save the crumbling ethnic apartheid wall didn't work, TPLF

If you think about it, four decades later; TPLF elites' lies run out of oxygen to overcome Ethiopians' unwavering determination 'ወያኔ አይገዛንም' message and resorted to the same old love-and-hate drama reversed and repackage to pivot reality and overcome Ethiopians' ውሸት ሰለቸን memorandum.

Our wise people say, 'የሌባ ደረቅ መልሶ ልብ ያደርቅ' to describe those that live a life of duplicity and believe; repeating the same lies over-and-over again would help them get away with 'murder'. Noting reflects that reality than the incoherent coverage of make-believe Media operators that perpetuate the same old fairytales in different packages to portray; TPLF instigated ethnic apartheid regime and its Mafia Development State are legitimate.

What make their agony more hilarious than otherwise is; their audacity to even think they are smart enough to outwit Ethiopians with village propaganda? We have to be honest. Ethiopians known wisdom of making jackasses out of her enemies without them even knowing it is undisputed historical fact and real.

Take for instance TPLF affiliated Horn Affairs online magazine cadre Zeray Hailemariam's Op-Ed; [Ethiopian Federal System - What Is in It?](#) that appeared on London based All Africa Media sourced from the 'government' run English Daily Ethiopian Herald to end up repackaged as '[Ethiopia's contradiction: Ethnofederalism or Federalism?](#)' on the infamous Tadias Magazine, a New York based online Media that see, hear, speaks no evil of TPLF ethnic apartheid regime but everything else.

No one knows whether cadre Hailemariam is asking himself, Ethiopians or foreigners. But, it would have been appropriate for Tadias Magazine to ask “TPLF’s contradiction instead of “Ethiopia’s contradiction” If the aim to repackage TPLF propaganda was to earn a resemblance of legitimacy among Ethiopians in the Diaspora and foreigners alike as Media.

Few weeks later (21 November 2017) another TPLF cadre by the name Berket Gebru on the same Ethiopian Herald’s Editorial titled “[Ethiopia: Building Diplomatic Muscle Through Economic Development](#)” found its way once again on the same All Africa Media to end up on the official TPLF’s mouthpieces in the diaspora like Aiga, Tigray Online and the rest.

Understandably, recycling repackaged lies to Ethiopians and the world comes naturally and expected from any illegitimate regime affiliated Media to pivot reality. But, to ask ‘what is in Ethiopian ‘Federal System’ or its supposed ‘contradiction’ nor to claim “Building Diplomacy Muscle through economic development” whether you label it ‘Ethnofederalism’, Federalism, Revolutionary Democracy or Developmental State can only come from co-conspirator of an illegitimate regime to disfranchise, confuse, divert and exploit the people or out of ignorance of the meaning of legitimate governance. How could any ‘Media’ contemplate -- by 100% voted regime is a government (federal or not) let alone legitimate and claim it is a Media is as strange as those that claim the regime is “democratically elected government”.

Moreover, the irony the Addis Ababa based Horn Affairs Online Magazine that sole purpose is to manufacture deceit on behalf of TPLF ethnic apartheid regime is anything but a TPLF ethnic Apartheid Affairs on Ethiopia for any Media to use as a source shows; the depth and the determination to institutionalize deception to undo Ethiopia as a nation again.

After all, ‘the proof is in the pudding’. The fact, Horn of Africa nations are not Amharic, Afan Oromo or Tigrigna speaking people as the Horn Affairs Magazine wanted the world to believe despite no one in the Region except Ethiopians use should tell us; the ‘reporters’ are either complacent to the reality of what TPLF is all about at best or committing treason by perpetuating fairytales to create one Horn of Africa Nation at worst to erase Ethiopia out of the map per the enablers’ instruction. There is no other explanation why Horn Affairs Magazine as its sister organization Horn of Africa Peace and Development Center were established.

As I said before, TPLF is a dead-and-deadly mercenary turn Mafia regime walking by its own admission, deeds and subversion. And, the more it put out love-and-hate or peace-and-war dramas backed by empty propaganda and ethnic paramilitary assassins the more it shorten the rope it hangs itself in disgrace as we are witnessing. Nor, its delusional apologists that pretend not to see, hear or speak of the deceptive, divisive, extortive and oppressive ethnic apartheid regime visible for the necked eye won’t escape responsibility for willfully skirting the reality. No wonder Ethiopians demands ‘ወያኔ አይገዛንም’... ‘ውሸት ሰለቸን’ fail in deaf ears.

Don’t get it twisted. There is nothing wrong for self-proclaimed non-Ethiopian TPLF busing its ‘Tigre’ warlords and ‘Oromo’ pupates to showcase its newfound love for its ‘Amhara’ pupates for whatever it worth. But, it won’t make iota of difference on the illegitimacy of the regime nor mean anything for rights and liberty of the people of Ethiopia until TPLF dismantle its ethnic terror and extortion networks and surrender for a legitimate government. There is no way out of that predicament.

Therefore, whether you call it 'Ethnofederalism', Ethnic Apartheid or Revolutionary Democracy -- hoping what TPLF warlords or their pupates said and do about Ethiopiawinet in language they hate and deprived Ethiopians not to speak, hear or read may distract some to forget the reality but, it won't change 'ወያኔ አይገዛንም' demand. How hard can that be to understand for any halfway literate person?

Ironically, the same 'fire and hay' Ethiopians Woyane told us do not mix not long ago all of a sudden to fall in love with each other told by the same Woyane warlords is music to Ethiopians' ears worth repeating ውሸት ሰለቸን again. After all, what got love to do with busing one TPLF warlord or ethnic pupate or another to love or hate our people when the ethnic Agazi assassins and the junior ethnic *Liyu* mercenaries terrorize and kill our people at will at the same time to thwart Ethiopians' demand 'ወያኔ አይገዛንም'?

Therefore, anyway we shake it or bake it, it all boils down to the question of legitimacy. Thus, the 64k question remained: Is Woyane legitimate by 100% as we are told or by 0% as Ethiopian voted?

No one we know of captured the nature of TPLF Mafia Inc. and its desperate PR drama to overcome its illegitimacy than Professor **Berhanu Nega**, Chairman of Patriotic-Ginbot 7 Movement and member of the Ethiopian National Movement on his recent interview on ESAT [Part 1](#) and [part 2](#).

If one pay close attention why many make-believe Medias failed to cover such reveling interview from a legitimate Ethiopian political leader that rattled the foundation TPLF's apartheid from its core to earn him and his compatriots the honor of being labeled terrorists, you not only can figure out why 'head-in-the-sand Medias' are instrumental keeping the illegitimate apartheid regime alive but, why they refuse to learn the unavoidable meaning of legitimacy to be relevant.

But, beyond TPLF Mafia Inc.'s desperate drama for legitimacy and the make-believe Medias opting out from covering the political, social and economic reality is; contemporary political elites' hate for TPLF ethnic apartheid and love for their version of ethnic apartheid at the same time or what Orwell referred as doublethink-- a mental capacity to accept contradictory beliefs at the same time.

Short of explanation for such tragic and consequential behavior on the expenses of our people, it appears the zero-sum game political culture to stay on or climb up to illegitimate political power by any means has lots to do with it -- leaving our people leaderless for vultures to dine as it was intended or as our wise people like to say; የፍክክር ቤት ሳይዘጋ ያድራል.

Among one of the new development the zero-sum game political culture brought is the creation of a make-believe ethnic Amhara 'opposition' group in the last hour backed by [Voice of Amhara Radio](#). Again, short of explanation why and the clandestine nature of the people behind would lead anyone to believe; sustaining ethnic apartheid by all means have everything to do with it. The fact it rapped itself with Ethiopian flag that doesn't belong to it to deprive the rest of Ethiopians their cherished national flag that unite them right out of the infamous Manifesto that created TPLF alone speaks volumes; ethnic apartheid as a meal ticket to illegitimate power is the work of foreign enablers that kept TPLF alive.

Again, don't take it wrong. There is no whatsoever problem forming ethnic, religious, regional, national... political party, movement... or advocacy group and Media to challenge oppressive regimes' violation of human rights and atrocities or corruption against any members of the Ethiopian family -- providing no illegitimate claim of representation outside the free will of the people. But, what we are

witnessing is contrary to our people's will to tell us; most new and old opposition groups and movements or Medias against the ethnic apartheid Woyane regime don't pass the 'smell test' of transparency themselves – making a mockery of democracy, the Free Press, individual freedom and universal suffrage of the respective ethnic groups they claim to represent nor for the people of Ethiopia as a whole. The questions that remained unanswered are why and what do they want?

Over a year ago (September 30, 2016) when I noticed the official [Press Release](#): “Voice of Amhara to start service” on **Morshe Wogene's** letterhead posted exclusively on a relatively new Satenaw Media with undisclosed operators, I asked; ‘Is TPLF putting voodoo spirit on Ethiopians?’

Further investigation why **Morshe Wogene** put out Press Release on the little known Satenaw Media led to a blog <https://satenawnews.blogspot.com/> to find out; the self-described Managing Editor **Alyou Tebeje** that also claims to be the Managing Editor of Ze-Habisha and Tenaadam Medias according to the blog. Recently, **Henok A Degfu** that claim to be Editor in Chief of Ze-Habisha and Tenaadam Media was found per his LinkedIn profile (<https://www.linkedin.com/in/henok-a-degfu-356a4059/>)

So far no one that run [Tenadiam YouTube Channel](#) Ze-Habisha frequently uses as its video feed from VOA, BNN, OMN... Medias with questionable content from many unknown characters as oppose Tennaadam website that provide health and natural healing content to ask again; is it Tenaadam or Tenaawodem?

But, when the infamous **Jawar Mohammed** of ‘Oromo First’ and ‘Ethiopia out of Oromiya’ advocate [appeared](#) on VOA Radio on Oct 25, 2017 introduced as activist and Managing Director of Oromo Media Network (OMN) through Tenaadam YouTube channel posted on Ze-Habisha Media to show his new love for new founded ethnic Amhara opposition rapped with Ethiopian flag in Amharic language he hated and deprive Oromo Ethiopians not to hear and speak followed by multiple appearance on ZeHabisha Media to analyses ‘the current Ethiopian affairs’ , it conformed my suspicion; the coordinated ‘drama’ has nothing to do with love of ‘Amhara’ or the reality of what the Woyane apartheid regime is doing but, everything to do with sustaining ethnic apartheid at the expenses of the people of Ethiopia to force me ask again; is it TPLF 2.0 disguised?

Notwithstanding Jawar's transformation (real or fake) from incoherent and contradictory statement of the past about the people of Ethiopia, Ethiopia and Amhars are refreshing to hear, the reality of what our people are going through under TPLF ethnic apartheid rule is worth asking; can unrelenting ethnic arsonist transform into a firefighter to put out the ethnic fire he helped started?

Short of answer and knowledge of the motive of our contemporary ethnic political elites, **Mesfin Feyesa**, a calm and collected Ethiopian [dissecting](#) Jawar's search for new and old ethnic partner to fulfill his version of ethnic apartheid on the people of Ethiopia via segregating our people in the tradition of his old and new partners is enlightening.

Quite honestly, listening **Mesfin Feyesa** talk about the secret of Ethiopiawinet and the behavior of dysfunctional political elites in general is priceless. He reminded me of what our wise forefathers use to say; ከአሁን ጋር የዋለች ጊደር ፈስ ተምራ ትመጣለች or better yet, አላዋቂ ሳሚ ንፍጥ ይለቀልቃል.

Dr Matebu Benti's several articles particularly an article titled [“Toxic Propaganda Targeted at Ethiopia and Ethiopian Unity: the Divisive Strategies](#) better summarizes our contemporary political elites’

dysfunctional behavior of making up fairytale to accomplish their mission at the expenses of the people of Ethiopia.

Therefore, blaming the symptom (Jawar's 'doublethink) not only would be a coup out from addressing the fundamental cause of dysfunctional behavior of our contemporary elites' that brought the Ethiopian Crises they have been milking for decades.

Jawar is a young and restless elite with elephant size ambition for illegitimate political power. Armed with immaterial education from prestigious Western institutions and a little recognition from make-believe Ethiopian and some foreign Medias with the usual 'bigotry of low expectation reserved for African elites; Ethiopians got the public face of dysfunctional ethnic elite Jawar i.e. advocate for ethnic-religious apartheid and as well as global activist for universal human and democratic rights and peaceful resistance rolled into one global political analyst running ethnic Media to make the universally rejected ethnic Apartheid look legitimate for Ethiopians only. Coincidence?

Once again, as the Feb 2017 article; "[The 'Ethiopian Crisis': Isn't the intellectual elites' willful ignorance that caused the crises?](#)" suggested -- our dysfunctional elites behaving like drunken sailors with impunity isn't by accident but, by design to remain relevant in their quest for illegitimate political and economic power at the expenses of the people of Ethiopia.

The irony contemporary political elites that supposedly oppose TPLF ethnic apartheid rule while promoting it at the same time says more about who is behind them as they scramble in all direction to be what they are not.

In that regard, the latest addition **Morshe Wogene Amhara** organization ([www.moreshwegenie.org](http://www.moreshwegenie.org)) rapped with Ethiopian flag and backed by Voice of Amhara Radio with a separate Facebook Page ([www.facebook.com/pg/VoiceofAmhara/about/?ref=page\\_internal](https://www.facebook.com/pg/VoiceofAmhara/about/?ref=page_internal) in collaboration with Tenaadam Youtube channel, Ze-Habisha and Satenaw Media is a good example what is wrong with foreign concept of ethnic apartheid for the people of Ethiopia.

When that wasn't enough, [Amhara Professionals Union](http://www.ambapu.org) ([www.ambapu.org](http://www.ambapu.org)) established "on November 15<sup>th</sup> 2016" with undisclosed individuals on its official website ([www.amharaamerica.org](http://www.amharaamerica.org)) and [Amhara Association of America](#) founded "on July 12, 2016" with unidentified individuals on the official Facebook Page (<https://www.facebook.com/Amhara-Association-of-America-975707695863042/>) also rapped with Ethiopian flag came out of nowhere.

The only public record found that identified the 'Co-Founder of **Amhara Association of America** is per [US Senate Subcommittee Hearing on Bill 168](#) when **Tewodrose Tirfe** testified in front of US Senate on behalf of AAA he 'co-founded' after the Bill was introduced by other advocacy groups. It is not clear why Tewodrose Tirfe failed to disclose the founders and officers of AAA's identities and credentials on the organization official Facebook Page and what relationship may be if any with [Amhara Professionals Union](#) and **Morshe Wogene** Amara Organization all created in the same year according to public record.

Moreover, how three 'independent' Amhara organizations and a Media all rapped with Ethiopian flag were created right after Gonder revolt with no information on the individuals provided on their

respective official websites or Facebook Page -- claiming to represent ethnic Amhara in the last hour is the million dollar question every legitimate Media and organization must demand answer.

At the meantime, observing what ZeHabisha, Satenaw and Tenaadam YouTube channel put out to undermine the united movement against TPLF apartheid regime should make every Ethiopian wonder if they are who they claim to be or a replica of the same old make-believe Medias that sustained ethnic apartheid in disguise.

It is abundantly clear by now, TPLF' Love-Hate and War- Peace drama is double crime on the people of Ethiopia to preserve a dying Apartheid system in hope of sustaining its oppressive, extortive, divisive and deceitful ethnic rule as long as possible to finish up its grand mission it was created for. Thus, as expected; Ethiopians' determination 'ወያኔ አይገዛንም'... 'ውሸት ስለችን' message failed on deaf ears.

What isn't clear yet is why parties backed by the make-believe Medias that supposedly oppose the ethnic apartheid regime play cat-and-mouse to promote the rejected tribalism unless they are the flip side of the same coin to keep ethnic apartheid alive as a means to illegitimate power?

Therefore, the need for independent Media monitoring group to overcome the confusion and diversion is needed more than ever.

Over the years Ethiopians witnessed wannabe Medias made a mockery of the reality, the Free Press, democracy and the rights and liberties of the people of Ethiopia over-and-over-again until ESAT came to change the Ethiopian Media landscape forever. As expected and unfortunately undermining ESAT came not only from the rogue regime's affiliated Medias but make-believe Medias with clandestine operators too.

By default, the official mouthpieces of TPLF Mafia Inc. are purveyors of fairytales to sustain the ethnic apartheid regime that benefit them. But, what isn't clear is the rest of 'Medias' that proclaim to be independent to shade light on the reality for the people of Ethiopia to make informed decision to achieve their liberties and democratic rights.

Notwithstanding most 'Medias' are political hacks pushing their version of fairytale for their political, social and economic end visible for the necked eyes, it wouldn't be an exaggeration to say; many are TPLF operatives in disguise. If that isn't the case; they wouldn't skirt the root problem of Ethiopia by picking and choosing news and opinions from questionable sources.

Take for instance the Sep 2017 article [Ethiopia: Informal Channels Raise Red Flag On Forex Earning](#) by **Desta Gebrehiwot** and posted on Satenaw Media with no verification of who Desta Gebrehiwot may be and where the source of the article originated nor who runs the informal foreign 'exchange channels' in the diaspora and in Ethiopia.

Apparently, the source of the article Satenaw failed to revile is the government owned Ethiopia Herald where Desta Gebrehiwot is 'employed' where many ruling party affiliated 'reporters' frequent as a platform for foreign Media like [All Africa](#), AP, AFA and the like to spread fairytale to the world. His own [LinkedIn](#) profile reviles; Gebrehiwot first and only job and experience for undisclosed period is the same Ethiopian Herald for Satenaw Media to ignore before putting out the ruling regime's propaganda out. This kinds of negligence or conspiracy is the tip of the iceberg what is being done in the name of the Free Press to undermine the people struggle to be free from tyranny.

Thus, the absence of Media monitoring group empowered many Media wannabes like Satenaw, Ze-Habisha, Tadias and Horn Affairs Magazine, EthioMedia to mention a few knowingly as it was intended or unknowingly out of ignorance slip in unverifiable propaganda without being challenged -- causing more confusion.

In fact, the very reason they don't disclose their background, association and whereabouts on their official website is precisely to avoid public scrutiny for their shady journalism.

The question; 'who monitor the reporters' remained the single most pressing issue for the people of Ethiopia to sort out the 'merchants of deceit and diverters of reality from truth tellers to help Ethiopians make informed decision on who is responsible for undermining their struggle for freedom and democracy.

I argue, TPLF operatives led Medias remained the most treacherous purveyors of fairytale followed by head-in-the sand Medias that divert Ethiopians from the reality on the ground for their own sinister agenda and political expediency.

The sooner they are monitored, identified and made to account for the public; the faster the rogue apartheid regime disappears in a tin air and the sooner freedom bell rings. After all, isn't the purveyor of fairytale that held the people hostage responsible from Ethiopians achieving freedom and democracy?
